Autopay Program Discount – Save your credit card payment information within our system and/or your Parent Portal account to ensure that you receive the Early Bird Discount every month. Your card will be drafted for your family's total monthly tuition, and any past due charges, on the 24th of the month prior to the enrollment month. You will still receive monthly billing statements, and you can still pay at any time during the month, but once your card is saved no further action is required to complete regular payments. Once you remove your payment information from our system you are no longer enrolled in this autopay program. Please keep information up-to-date. The \$5.00 early bird discount reversal will apply if your card is declined and payment has not been received before the **25th of the month**.
